Long Haul Alternators

Advanced Charging Technology

FOR MEDIUM & HEAVY DUTY APPLICATIONS

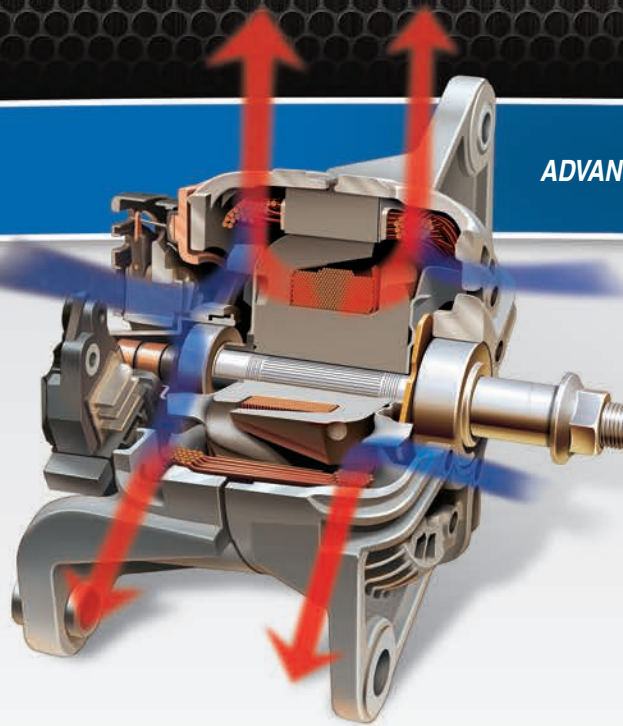

Long Haul Alternators for Class 4 - Class 8 Applications

With Bosch it's all about keeping vehicles on the road. When they're not rolling, time and money are lost. The kind of miles these vehicles put on demands power, and lots of it. That's why you should demand Bosch Ultra Premium Long Haul Alternators.

Features

- 2 part numbers - AL9960LH/AL9961LH
- Advanced, high-efficiency design and operation
- 160 amp operating output and higher output at engine idle
- Temperature and vibration-resistant designed materials and components
- Dual internal cooling fans, and externally mounted rectifier and regulator
- Exclusive Bosch long-life bearing technology
- Warranted for longer than like-for-likes last!

ADVANCED TECHNOLOGY & DESIGN

School Bus Applications

As the world's largest alternator manufacturer, Bosch builds its school bus alternators to stringent precision and performance criteria. All alternators are 100% factory tested to ensure superior reliability and performance over the long haul.

Features

- 2 part numbers with unique terminal configuration AL9962SB/AL9963SB (replaces over 200 OE parts)
- 200 Amp operating output and higher output at engine idle
- Temperature and vibration resistant materials and components
- Exclusive Bosch self protection voltage regulator
- Dual internal cooling fans, and externally mounted rectifier and regulator
- Exclusive Bosch long-life bearing technology
- Advanced, high - efficiency design and operation
- 24 month / 200,000 mile warranty

Benefits

- Replaces over 300 Older Technology part numbers
- Fuel savings up to \$400 / 100,000 miles
- Increased battery life from maximum power under all vehicle conditions
- Unmatched reliability over longer service life
- Virtually eliminate heat damage, promoting long life
- Reliable performance and increase service life
- Best-In-Class warranty 24 month - 250,000 mile warranty
