**WE OFFER
GENUINE OEM
NAMES LIKE:**

AND SO MANY MORE...

When you need critical engine components, you need the best products from the best source. Using OEM parts is a wise choice, but you don't have to get them from a Vehicle OEM dealer. Name brand products that make your truck's engine perform best can usually be obtained for less from the "Component OEM Distributor". That's who we are.

All of our locations listed on www.DieselUSA.com are Component OEM authorized for the products we sell and service.

We specialize in electrical, fuel, and air management components like, Fuel Injection Pumps, Injectors, Turbochargers, Charge-air coolers, Starters, Alternators, Fuel Filtration, Additives, and more. We even have a wide array of Performance Diesel products for your diesel pick-up truck!

As specialists, we maintain an experienced staff of factory trained service technicians that not only know how to correctly rebuild and calibrate your engine's components, but we can also tell you why it failed. Specialists can do that, generalists cannot. Getting a specialist for less than what you would pay a generalist gives you higher value.

ALL MAKES TURBOCHARGERS

The Diesel USA Group represents the largest turbocharger distributor in North America.

We only offer the best, with names like Borg-Warner, Holset and Garrett in our distribution facilities, the Diesel USA Group of companies is your one stop for all makes of turbochargers.

Garrett Turbos For All Engines:
INTERNATIONAL
MACK
DETROIT DIESEL
CATERPILLAR
CUMMINS
VOLVO

Save This Brochure!

When you need any of the service products shown, simply hand this brochure to the location you visit at the time of purchase, and you'll receive a FREE BOTTLE of Stanadyne's Performance Formula. Performance Formula is the number one diesel fuel additive, and is the only additive recommended by nearly all diesel engine manufacturers. In addition to containing a full winter treatment package, it also contains the highest rated fuel system lubricant, and a strong CETANE booster to help raise your fuel's rating which means lower smoke, more power, higher economy, and easier cold weather starting!

*Offer subject to cancellation at any time.

ELECTRICAL COMPONENTS

Our diesel electrical OEM components consist of starters, alternators, voltage regulators and AC compressors. These products are designed and tested to provide your diesel application with optimum performance.

Bosch, Denso, Leece-Neville and Delco-Remy are just some of the genuine OE brands that are offered by the Diesel USA Group of companies.

Bosch Long Haul Alternator
250,000 Mile Warranty
High Output
Best Warranty

Denso R5 Starter
350,000 Mile Warranty
High Torque
Best Warranty

FUEL INJECTION

The fuel injection system on a diesel is home to the most complex components in your diesel engine. Improper parts, maintenance, and care of your fuel injection system can cause complete failure!

We offer only the best, with names like Bosch, Delphi and Stanadyne our OE products can help you keep your heavy duty truck running non-stop.

Mechanical and Electronic Unit Injectors and Fuel Injection Pumps.

FILTRATION

Keep out those harmful particles and improve performance with your diesel application. High performance diesel fuel filters from the Diesel USA group of companies can help you get superior quality from your diesel application.

Come to us for your filtration needs, Stanadyne, Racor and many more names to choose from.

ALL MAKES CHARGE-AIR COOLERS

When your charge-air cooler is properly working, it provides better horsepower, increased fuel efficiency, and reduces engine emissions. A leaking charge-air cooler accounts for the greatest percentage of fuel loss for on-road diesel trucks.

To combat charge-air cooler failure, the Diesel USA Group offers only the best, Av-Tekk Charge-Air Coolers. Learn more online at www.DieselUSA.com.

New OE Style Av-Tekk Charge-Air Cooler
