

www.DIESELUSA.com

For over 60 years, the Diesel USA Group of companies has been providing original equipment diesel engine service products using genuine parts and factory authorized calibration of these critical engine components. From our founder's beginnings in 1950 through today, our close ties and relationships with the world's leading OEM component manufacturers means superior technical knowledge, state-of-the-art equipment, and a vast range of inventory to help commercial diesel owners get their equipment up and running quickly and dependably. Our customers are our partners and they have grown to know that our performance to meet their needs sets the bar and leads the market.

### THE PROOF...

In an independent survey, commercial diesel maintenance facilities rated our company on average 14% better than our competitors in availability of parts and pricing, quality of workmanship, speed of service, and our overall knowledge of products.

\*All Others-OEM Truck Dealers, Independent Warehouses, OEM Engine Distributors, Contracted Parts and Labor, Other Authorized Dealers

Our specialized knowledge, leadership, and experience that began over six decades ago still guides us today and is why we continue to outperform all other sources for the critical engine components you need. No other source has our network inventory for rapid service, our local technical support to perform failure analyses to help you problem solve, our ability to service the very oldest to the latest high-tech products, our skills to provide superior designed products as a solution to lowering your maintenance costs.

No wonder we have a Market-Wide reputation for superior technical performance and customer satisfaction. When you use a Diesel USA Group facility, you advance your maintenance program.

*Best Products, Best Service, Best Value.  
And We Can Prove It!*

DIESELUSA GROUP™

### All Makes Turbochargers

The Diesel USA Group represents the largest distribution entity for turbochargers in North America. In addition to carrying a vast inventory to service most any commercial or consumer diesel, we also maintain a diverse inventory for gasoline automotive service and high-performance retrofits including the popular Garrett brand GT-Series with ball-bearings for superior performance and durability.

Ask about our Industry Leading "Guaranteed Warranty™"!

We Service:

### Fuel Injection Products

The fuel injection system on a diesel is home to the most complex components in your diesel engine. Improper parts, maintenance, and care of your fuel injection system can cause complete failure! Here in the Diesel USA Group of companies we offer more than parts; we offer our deep knowledge base and expertise to help get your diesel back up and running at optimum efficiency. Our product offering spans Parts, Pumps, Nozzles, Injectors, Exchange Units and Test Equipment for diesel service centers.

We Service:

### Test Equipment and Tools:

Bacharach Instruments, Hartridge, Master Pump, Master Calibrating Equipment, OTC and Robert Bosch.

### Rotating Electrical Components

Our diesel electrical OEM components consist of starters and alternators that range from direct replacement type units to advanced designs that provide solutions to frequent replacements. These products are designed and tested to provide your diesel application with optimum performance. Whether you operate a heavy-duty or light duty diesel application, the Diesel USA Group has a complete line of OEM components for you.

Our Brands Include

### Performance Diesel

The Diesel USA Group offers many products to help aid in the performance of your diesel engine. High performance air/oil/fuel filters, fuel additives and diesel fuel heaters, high performance chips/tuners/gauges, and exhausts make up these product lines.

### High Performance Filtration:

High performance air/oil/fuel filters from the Diesel USA Group of companies can help you get superior quality from your diesel application. Our Brands Include:

### Fuel/Oil Additives and Heaters

Diesel fuel additives and diesel fuel heaters increase the performance of your vehicle. With these products you gain more fuel performance, longevity of your diesel application, and in some cases, added horsepower. Our Brands Include:

### Chips/Tuners/Gauges and Exhausts

The Diesel USA Group of companies brings you the performance instruments you know and love. We offer everything from performance chips and electronic tuners to performance gauges and exhausts. We even have performance modules for heavy-duty diesels that enhance power and fuel economy! Our Brands Include:

### Engine Controls

Engine controls include governors and engine brakes which convert the engine from a "power producer" to a "power absorber". Governors are applied to everything from small generators to heavy-duty marine and rail where engines rated in thousands of horsepower are used.

### Governors

When something as important as fuel delivery is being dealt with you don't want just any governor for your diesel engine. The Diesel USA Group offers the best governor brand names on the market today. Our Brands Include:

We are a Woodward governor Authorized Independent Service Facility (AISF).

### Engine Brakes

To stop when you need to, you need the proper equipment. With Diesel USA you can get the proper engine braking you deserve. Our Brands Include:

### All Makes Charge-Air Coolers

Diesel USA has been revolutionizing the charge-air cooler industry since the very beginning. We have made it our mission to improve the durability and experience of all diesel charge-air coolers and that is precisely why we offer the most trusted heavy-duty charge-air coolers on the market today.

Our Brands Include

### Test Equipment and Tools:

Av-Tekk Hose & Clamp Kits  
Quick Check Leak Test Kits
