

# ATTENTION

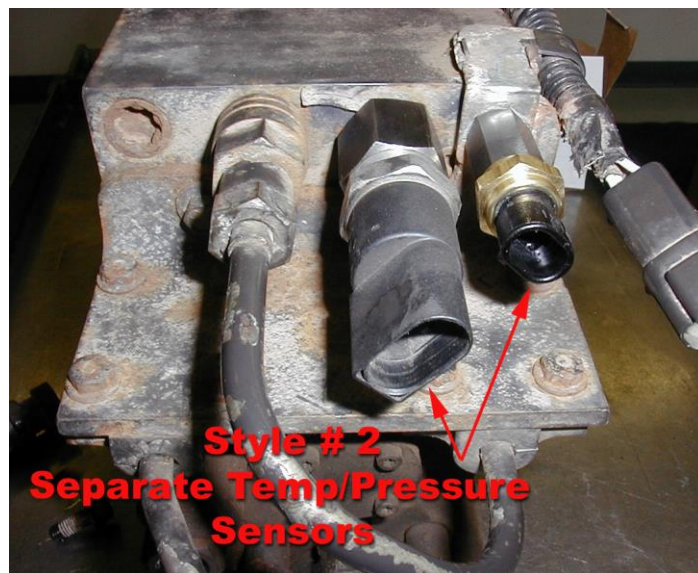

This pump is supplied with the latest style pressure and temperature sensors. Modifications to vehicle wiring harness may be required. Use the chart below to find the correct wire harness modification kit.

## Original vehicle wiring configuration

### Style #1

Combined pressure and temperature sensor.

Use kit part number # 4089442

### Style #2

Separate pressure and temperature sensor where the pressure sensor does not have a pigtail.

Use kit part number # 4089441

### Style #3

Separate pressure and temperature sensor where the pressure has a pigtail. No wiring modification required.
